## WHAT IS THE SBA 504 PROGRAM?

The SBA 504 Loan Program is a fixed asset financing program for expanding small business. It is the first federal financing tool to recognize the importance of small businesses in the job creation process through their capital asset purchases.

SBA 504 loans, offered by the Altoona-Blair County Development Corp. in conjunction with lenders throughout Pennsylvania, stimulate the development and growth of small businesses.

## WHAT DOES THE SBA 504 PROGRAM DO?

Small businesses, historically unable to tap into the long term capital market, can do so with the 504 loan. Terms and conditions more suited the needs of small businesses are possible with this program.

The structure of 504 loan financing supplements private sector financing from conventional lending sources along with other economic development financing programs.
